

# The Right Equipment for the Job

## FL Model Dust Collector

### Improve plant cleanliness & increase efficiency

- **Greater dust control** - Self-contained system improves safety and housekeeping.
- **Minimize maintenance** - The automatic, alternating, reverse pulse-jet filter cleans the filter to ensure proper dust collection with minimal maintenance requirements.
- **Integrate as part of a system** - The Dust Collector can be integrated with a hopper and is easily combined with conveyors, mixers, and other material handling and processing equipment.

*Remove filters through front access door.*

# FL Model Dust Collector

## Dust Collection Improves Plant Environment and Safety

### Specifications

FL Model Integral Dust Collection System is designed for washdown applications that require additional filter area or frequent filter changeovers:

- Front access door for tool-less filter removal
- Gas spring assisted hinged door
- Reverse pulse for filter cleaning with adjustable timer (10 SCFM @ 50 psi (min) compress air supply)
- Filters rated at MERV 16 (99.95% minimal efficiency at .3-1 micron)

### Optional Configurations

#### FR Model Dust Collector:

Designed for applications where washdown is not required.

#### GB Model Dust Collector:

Designed for applications where you would like to limit operator exposure to material.

#### Optional compactor offers safe, efficient bag disposal.

Keep areas surrounding your operation clear of debris and dust. Hapman compactors attach to the side of your bag dump station through an access port in the station's side wall. Empty bags pass easily into the compactor, so dust does not have an opportunity to leave the station.

- Compresses material into a final package of 4 ft<sup>3</sup> (.113 m<sup>3</sup>) for easy disposal.
- Ensures safe and simple operation with pneumatic-powered rams.

### See More Equipment At [hapman.com](http://hapman.com)

Hapman offers a complete line of material handling equipment that easily integrates into existing systems, including:

- Drag Conveyors
- Tubular Drag Conveyors
- Feeders
- Vacuum Conveyors
- Bulk Bag Unloaders
- Helix Flexible Screw Conveyors
- Bag Compactors
- Lump Breakers
- And More

We offer a true performance guarantee ensuring your Hapman equipment achieves the specific results it was designed and manufactured to deliver. And if you need technical support, call us. We are available 24/7.
